

Directory of preferred providers

First Health Network

Search Criteria

Provider Type: Physician

State : WI

County: Manitowoc, Marathon, Marinette, Marquette, Menominee, Monroe,
Oconto and Oneida

Thank you for using our online provider search tool and requesting this printer-friendly view of your search results. This provider list reflects the search criteria you selected. You'll see your search criteria at the top of this first page. Provider information contained in First Health's online directory is updated weekly from information received from our provider network. This excludes interruptions due to system maintenance, upgrades or unplanned outages. Please check with the provider before scheduling your appointment to confirm he or she is participating in First Health's network. We can't guarantee the availability of any particular provider. If you have questions about your health plan benefits, you can call the customer service number on your member identification (ID) card. Participating physicians, hospitals and other health care professionals are independent contractors and are neither agents nor employees of First Health. You can get this information at no extra charge in other languages. Just call customer service at the number on your ID card.

Provider information contained in First Health's directory was updated on 12/26/2019. Information included in the directory is accurate, to the best of First Health's knowledge, as of the date of updating/printing, and that members or prospective members should consult First Health's electronic provider directory on its website, or call First Health's customer service phone number, to obtain current provider directory information.

If an appropriate provider cannot be found within the directory, please contact your insurer/carrier to discuss arrangement of care from outside of the network.

Call the phone number on the back of the member's ID card to report inaccurate information OR fill out the online form available under "Report Inaccurate Information". An enrollee may submit a complaint if the enrollee believes they reasonably relied upon materially inaccurate, incomplete, or misleading directory information.

The listing of providers in this directory is not a guarantee of benefits for the services they provide. Some hospital-based physicians such as anesthesiologists, pathologists, radiologists, neonatologists and emergency room physicians may not be network providers. You should always check with the provider before receiving services to confirm he or she is participating in First Health's network. You may incur additional costs if you use out-of-network providers.

St. Joseph'S Hospital

The listing of providers in this directory is not a guarantee of benefits for the services they provide. Some hospital-based physicians such as anesthesiologists, pathologists, radiologists, neonatologists and emergency room physicians may not be network providers. You should always check with the provider before receiving services to confirm he or she is participating in First Health's network. You may incur additional costs if you use out-of-network providers.

The listing of providers in this directory is not a guarantee of benefits for the services they provide. Some hospital-based physicians such as anesthesiologists, pathologists, radiologists, neonatologists and emergency room physicians may not be network providers. You should always check with the provider before receiving services to confirm he or she is participating in First Health's network. You may incur additional costs if you use out-of-network providers.

The listing of providers in this directory is not a guarantee of benefits for the services they provide. Some hospital-based physicians such as anesthesiologists, pathologists, radiologists, neonatologists and emergency room physicians may not be network providers. You should always check with the provider before receiving services to confirm he or she is participating in First Health's network. You may incur additional costs if you use out-of-network providers.

The listing of providers in this directory is not a guarantee of benefits for the services they provide. Some hospital-based physicians such as anesthesiologists, pathologists, radiologists, neonatologists and emergency room physicians may not be network providers. You should always check with the provider before receiving services to confirm he or she is participating in First Health's network. You may incur additional costs if you use out-of-network providers.

The listing of providers in this directory is not a guarantee of benefits for the services they provide. Some hospital-based physicians such as anesthesiologists, pathologists, radiologists, neonatologists and emergency room physicians may not be network providers. You should always check with the provider before receiving services to confirm he or she is participating in First Health's network. You may incur additional costs if you use out-of-network providers.

Cardiology, Interventional

The listing of providers in this directory is not a guarantee of benefits for the services they provide. Some hospital-based physicians such as anesthesiologists, pathologists, radiologists, neonatologists and emergency room physicians may not be network providers. You should always check with the provider before receiving services to confirm he or she is participating in First Health's network. You may incur additional costs if you use out-of-network providers.

The listing of providers in this directory is not a guarantee of benefits for the services they provide. Some hospital-based physicians such as anesthesiologists, pathologists, radiologists, neonatologists and emergency room physicians may not be network providers. You should always check with the provider before receiving services to confirm he or she is participating in First Health's network. You may incur additional costs if you use out-of-network providers.

The listing of providers in this directory is not a guarantee of benefits for the services they provide. Some hospital-based physicians such as anesthesiologists, pathologists, radiologists, neonatologists and emergency room physicians may not be network providers. You should always check with the provider before receiving services to confirm he or she is participating in First Health's network. You may incur additional costs if you use out-of-network providers.

The listing of providers in this directory is not a guarantee of benefits for the services they provide. Some hospital-based physicians such as anesthesiologists, pathologists, radiologists, neonatologists and emergency room physicians may not be network providers. You should always check with the provider before receiving services to confirm he or she is participating in First Health's network. You may incur additional costs if you use out-of-network providers.

The listing of providers in this directory is not a guarantee of benefits for the services they provide. Some hospital-based physicians such as anesthesiologists, pathologists, radiologists, neonatologists and emergency room physicians may not be network providers. You should always check with the provider before receiving services to confirm he or she is participating in First Health's network. You may incur additional costs if you use out-of-network providers.

The listing of providers in this directory is not a guarantee of benefits for the services they provide. Some hospital-based physicians such as anesthesiologists, pathologists, radiologists, neonatologists and emergency room physicians may not be network providers. You should always check with the provider before receiving services to confirm he or she is participating in First Health's network. You may incur additional costs if you use out-of-network providers.

The listing of providers in this directory is not a guarantee of benefits for the services they provide. Some hospital-based physicians such as anesthesiologists, pathologists, radiologists, neonatologists and emergency room physicians may not be network providers. You should always check with the provider before receiving services to confirm he or she is participating in First Health's network. You may incur additional costs if you use out-of-network providers.

The listing of providers in this directory is not a guarantee of benefits for the services they provide. Some hospital-based physicians such as anesthesiologists, pathologists, radiologists, neonatologists and emergency room physicians may not be network providers. You should always check with the provider before receiving services to confirm he or she is participating in First Health's network. You may incur additional costs if you use out-of-network providers.

The listing of providers in this directory is not a guarantee of benefits for the services they provide. Some hospital-based physicians such as anesthesiologists, pathologists, radiologists, neonatologists and emergency room physicians may not be network providers. You should always check with the provider before receiving services to confirm he or she is participating in First Health's network. You may incur additional costs if you use out-of-network providers.

The listing of providers in this directory is not a guarantee of benefits for the services they provide. Some hospital-based physicians such as anesthesiologists, pathologists, radiologists, neonatologists and emergency room physicians may not be network providers. You should always check with the provider before receiving services to confirm he or she is participating in First Health's network. You may incur additional costs if you use out-of-network providers.

The listing of providers in this directory is not a guarantee of benefits for the services they provide. Some hospital-based physicians such as anesthesiologists, pathologists, radiologists, neonatologists and emergency room physicians may not be network providers. You should always check with the provider before receiving services to confirm he or she is participating in First Health's network. You may incur additional costs if you use out-of-network providers.

The listing of providers in this directory is not a guarantee of benefits for the services they provide. Some hospital-based physicians such as anesthesiologists, pathologists, radiologists, neonatologists and emergency room physicians may not be network providers. You should always check with the provider before receiving services to confirm he or she is participating in First Health's network. You may incur additional costs if you use out-of-network providers.

The listing of providers in this directory is not a guarantee of benefits for the services they provide. Some hospital-based physicians such as anesthesiologists, pathologists, radiologists, neonatologists and emergency room physicians may not be network providers. You should always check with the provider before receiving services to confirm he or she is participating in First Health's network. You may incur additional costs if you use out-of-network providers.

The listing of providers in this directory is not a guarantee of benefits for the services they provide. Some hospital-based physicians such as anesthesiologists, pathologists, radiologists, neonatologists and emergency room physicians may not be network providers. You should always check with the provider before receiving services to confirm he or she is participating in First Health's network. You may incur additional costs if you use out-of-network providers.

The listing of providers in this directory is not a guarantee of benefits for the services they provide. Some hospital-based physicians such as anesthesiologists, pathologists, radiologists, neonatologists and emergency room physicians may not be network providers. You should always check with the provider before receiving services to confirm he or she is participating in First Health's network. You may incur additional costs if you use out-of-network providers.

The listing of providers in this directory is not a guarantee of benefits for the services they provide. Some hospital-based physicians such as anesthesiologists, pathologists, radiologists, neonatologists and emergency room physicians may not be network providers. You should always check with the provider before receiving services to confirm he or she is participating in First Health's network. You may incur additional costs if you use out-of-network providers.

The listing of providers in this directory is not a guarantee of benefits for the services they provide. Some hospital-based physicians such as anesthesiologists, pathologists, radiologists, neonatologists and emergency room physicians may not be network providers. You should always check with the provider before receiving services to confirm he or she is participating in First Health's network. You may incur additional costs if you use out-of-network providers.

The listing of providers in this directory is not a guarantee of benefits for the services they provide. Some hospital-based physicians such as anesthesiologists, pathologists, radiologists, neonatologists and emergency room physicians may not be network providers. You should always check with the provider before receiving services to confirm he or she is participating in First Health's network. You may incur additional costs if you use out-of-network providers.

The listing of providers in this directory is not a guarantee of benefits for the services they provide. Some hospital-based physicians such as anesthesiologists, pathologists, radiologists, neonatologists and emergency room physicians may not be network providers. You should always check with the provider before receiving services to confirm he or she is participating in First Health's network. You may incur additional costs if you use out-of-network providers.

The listing of providers in this directory is not a guarantee of benefits for the services they provide. Some hospital-based physicians such as anesthesiologists, pathologists, radiologists, neonatologists and emergency room physicians may not be network providers. You should always check with the provider before receiving services to confirm he or she is participating in First Health's network. You may incur additional costs if you use out-of-network providers.

The listing of providers in this directory is not a guarantee of benefits for the services they provide. Some hospital-based physicians such as anesthesiologists, pathologists, radiologists, neonatologists and emergency room physicians may not be network providers. You should always check with the provider before receiving services to confirm he or she is participating in First Health's network. You may incur additional costs if you use out-of-network providers.

The listing of providers in this directory is not a guarantee of benefits for the services they provide. Some hospital-based physicians such as anesthesiologists, pathologists, radiologists, neonatologists and emergency room physicians may not be network providers. You should always check with the provider before receiving services to confirm he or she is participating in First Health's network. You may incur additional costs if you use out-of-network providers.

The listing of providers in this directory is not a guarantee of benefits for the services they provide. Some hospital-based physicians such as anesthesiologists, pathologists, radiologists, neonatologists and emergency room physicians may not be network providers. You should always check with the provider before receiving services to confirm he or she is participating in First Health's network. You may incur additional costs if you use out-of-network providers.

The listing of providers in this directory is not a guarantee of benefits for the services they provide. Some hospital-based physicians such as anesthesiologists, pathologists, radiologists, neonatologists and emergency room physicians may not be network providers. You should always check with the provider before receiving services to confirm he or she is participating in First Health's network. You may incur additional costs if you use out-of-network providers.

The listing of providers in this directory is not a guarantee of benefits for the services they provide. Some hospital-based physicians such as anesthesiologists, pathologists, radiologists, neonatologists and emergency room physicians may not be network providers. You should always check with the provider before receiving services to confirm he or she is participating in First Health's network. You may incur additional costs if you use out-of-network providers.

The listing of providers in this directory is not a guarantee of benefits for the services they provide. Some hospital-based physicians such as anesthesiologists, pathologists, radiologists, neonatologists and emergency room physicians may not be network providers. You should always check with the provider before receiving services to confirm he or she is participating in First Health's network. You may incur additional costs if you use out-of-network providers.

The listing of providers in this directory is not a guarantee of benefits for the services they provide. Some hospital-based physicians such as anesthesiologists, pathologists, radiologists, neonatologists and emergency room physicians may not be network providers. You should always check with the provider before receiving services to confirm he or she is participating in First Health's network. You may incur additional costs if you use out-of-network providers.

The listing of providers in this directory is not a guarantee of benefits for the services they provide. Some hospital-based physicians such as anesthesiologists, pathologists, radiologists, neonatologists and emergency room physicians may not be network providers. You should always check with the provider before receiving services to confirm he or she is participating in First Health's network. You may incur additional costs if you use out-of-network providers.

The listing of providers in this directory is not a guarantee of benefits for the services they provide. Some hospital-based physicians such as anesthesiologists, pathologists, radiologists, neonatologists and emergency room physicians may not be network providers. You should always check with the provider before receiving services to confirm he or she is participating in First Health's network. You may incur additional costs if you use out-of-network providers.

The listing of providers in this directory is not a guarantee of benefits for the services they provide. Some hospital-based physicians such as anesthesiologists, pathologists, radiologists, neonatologists and emergency room physicians may not be network providers. You should always check with the provider before receiving services to confirm he or she is participating in First Health's network. You may incur additional costs if you use out-of-network providers.

The listing of providers in this directory is not a guarantee of benefits for the services they provide. Some hospital-based physicians such as anesthesiologists, pathologists, radiologists, neonatologists and emergency room physicians may not be network providers. You should always check with the provider before receiving services to confirm he or she is participating in First Health's network. You may incur additional costs if you use out-of-network providers.

The listing of providers in this directory is not a guarantee of benefits for the services they provide. Some hospital-based physicians such as anesthesiologists, pathologists, radiologists, neonatologists and emergency room physicians may not be network providers. You should always check with the provider before receiving services to confirm he or she is participating in First Health's network. You may incur additional costs if you use out-of-network providers.

The listing of providers in this directory is not a guarantee of benefits for the services they provide. Some hospital-based physicians such as anesthesiologists, pathologists, radiologists, neonatologists and emergency room physicians may not be network providers. You should always check with the provider before receiving services to confirm he or she is participating in First Health's network. You may incur additional costs if you use out-of-network providers.

The listing of providers in this directory is not a guarantee of benefits for the services they provide. Some hospital-based physicians such as anesthesiologists, pathologists, radiologists, neonatologists and emergency room physicians may not be network providers. You should always check with the provider before receiving services to confirm he or she is participating in First Health's network. You may incur additional costs if you use out-of-network providers.

The listing of providers in this directory is not a guarantee of benefits for the services they provide. Some hospital-based physicians such as anesthesiologists, pathologists, radiologists, neonatologists and emergency room physicians may not be network providers. You should always check with the provider before receiving services to confirm he or she is participating in First Health's network. You may incur additional costs if you use out-of-network providers.

The listing of providers in this directory is not a guarantee of benefits for the services they provide. Some hospital-based physicians such as anesthesiologists, pathologists, radiologists, neonatologists and emergency room physicians may not be network providers. You should always check with the provider before receiving services to confirm he or she is participating in First Health's network. You may incur additional costs if you use out-of-network providers.

The listing of providers in this directory is not a guarantee of benefits for the services they provide. Some hospital-based physicians such as anesthesiologists, pathologists, radiologists, neonatologists and emergency room physicians may not be network providers. You should always check with the provider before receiving services to confirm he or she is participating in First Health's network. You may incur additional costs if you use out-of-network providers.

The listing of providers in this directory is not a guarantee of benefits for the services they provide. Some hospital-based physicians such as anesthesiologists, pathologists, radiologists, neonatologists and emergency room physicians may not be network providers. You should always check with the provider before receiving services to confirm he or she is participating in First Health's network. You may incur additional costs if you use out-of-network providers.

The listing of providers in this directory is not a guarantee of benefits for the services they provide. Some hospital-based physicians such as anesthesiologists, pathologists, radiologists, neonatologists and emergency room physicians may not be network providers. You should always check with the provider before receiving services to confirm he or she is participating in First Health's network. You may incur additional costs if you use out-of-network providers.

The listing of providers in this directory is not a guarantee of benefits for the services they provide. Some hospital-based physicians such as anesthesiologists, pathologists, radiologists, neonatologists and emergency room physicians may not be network providers. You should always check with the provider before receiving services to confirm he or she is participating in First Health's network. You may incur additional costs if you use out-of-network providers.

The listing of providers in this directory is not a guarantee of benefits for the services they provide. Some hospital-based physicians such as anesthesiologists, pathologists, radiologists, neonatologists and emergency room physicians may not be network providers. You should always check with the provider before receiving services to confirm he or she is participating in First Health's network. You may incur additional costs if you use out-of-network providers.

The listing of providers in this directory is not a guarantee of benefits for the services they provide. Some hospital-based physicians such as anesthesiologists, pathologists, radiologists, neonatologists and emergency room physicians may not be network providers. You should always check with the provider before receiving services to confirm he or she is participating in First Health's network. You may incur additional costs if you use out-of-network providers.

The listing of providers in this directory is not a guarantee of benefits for the services they provide. Some hospital-based physicians such as anesthesiologists, pathologists, radiologists, neonatologists and emergency room physicians may not be network providers. You should always check with the provider before receiving services to confirm he or she is participating in First Health's network. You may incur additional costs if you use out-of-network providers.

The listing of providers in this directory is not a guarantee of benefits for the services they provide. Some hospital-based physicians such as anesthesiologists, pathologists, radiologists, neonatologists and emergency room physicians may not be network providers. You should always check with the provider before receiving services to confirm he or she is participating in First Health's network. You may incur additional costs if you use out-of-network providers.

The listing of providers in this directory is not a guarantee of benefits for the services they provide. Some hospital-based physicians such as anesthesiologists, pathologists, radiologists, neonatologists and emergency room physicians may not be network providers. You should always check with the provider before receiving services to confirm he or she is participating in First Health's network. You may incur additional costs if you use out-of-network providers.

The listing of providers in this directory is not a guarantee of benefits for the services they provide. Some hospital-based physicians such as anesthesiologists, pathologists, radiologists, neonatologists and emergency room physicians may not be network providers. You should always check with the provider before receiving services to confirm he or she is participating in First Health's network. You may incur additional costs if you use out-of-network providers.

Vascular Surgery

The listing of providers in this directory is not a guarantee of benefits for the services they provide. Some hospital-based physicians such as anesthesiologists, pathologists, radiologists, neonatologists and emergency room physicians may not be network providers. You should always check with the provider before receiving services to confirm he or she is participating in First Health's network. You may incur additional costs if you use out-of-network providers.

How we build our network

To build our network, we look at how many primary and specialty care doctors are in a specific area. We also look at hospitals and other health care providers. This way we can make enough providers available to meet your health care needs. And, so you don't have to go a long way or spend a lot of time getting there.

All doctors and hospitals must meet certain standards and agree to rates with us before joining our network.

Hospitals

One of the ways we lower health care costs is by building networks with a focus on quality and cost. We evaluate and select hospitals for our networks using both quality and cost-efficiency measures. We measure quality using specific established standards. To measure cost efficiency, we compare each hospital to other hospitals in the area.

Doctors

We choose our network doctors from multiple specialty types as well as primary care. Doctors must meet certain standards and agree to rates with us before joining our network. The standards used vary depending on the doctor's specialty.

- Allergy/Immunology
- Dermatology
- Endocrinology
- Infectious Disease

Directory of preferred providers

First Health Network

Search Criteria

Provider Type: Physician

State : WI

County: Marquette

Thank you for using our online provider search tool and requesting this printer-friendly view of your search results. This provider list reflects the search criteria you selected. You'll see your search criteria at the top of this first page. Provider information contained in First Health's online directory is updated weekly from information received from our provider network. This excludes interruptions due to system maintenance, upgrades or unplanned outages. Please check with the provider before scheduling your appointment to confirm he or she is participating in First Health's network. We can't guarantee the availability of any particular provider. If you have questions about your health plan benefits, you can call the customer service number on your member identification (ID) card. Participating physicians, hospitals and other health care professionals are independent contractors and are neither agents nor employees of First Health. You can get this information at no extra charge in other languages. Just call customer service at the number on your ID card.

Provider information contained in First Health's directory was updated on 12/27/2019. Information included in the directory is accurate, to the best of First Health's knowledge, as of the date of updating/printing, and that members or prospective members should consult First Health's electronic provider directory on its website, or call First Health's customer service phone number, to obtain current provider directory information.

If an appropriate provider cannot be found within the directory, please contact your insurer/carrier to discuss arrangement of care from outside of the network.

Call the phone number on the back of the member's ID card to report inaccurate information OR fill out the online form available under "Report Inaccurate Information". An enrollee may submit a complaint if the enrollee believes they reasonably relied upon materially inaccurate, incomplete, or misleading directory information.

The listing of providers in this directory is not a guarantee of benefits for the services they provide. Some hospital-based physicians such as anesthesiologists, pathologists, radiologists, neonatologists and emergency room physicians may not be network providers. You should always check with the provider before receiving services to confirm he or she is participating in First Health's network. You may incur additional costs if you use out-of-network providers.

^ Not Accepting New Patients

How we build our network

To build our network, we look at how many primary and specialty care doctors are in a specific area. We also look at hospitals and other health care providers. This way we can make enough providers available to meet your health care needs. And, so you don't have to go a long way or spend a lot of time getting there.

All doctors and hospitals must meet certain standards and agree to rates with us before joining our network.

Hospitals

One of the ways we lower health care costs is by building networks with a focus on quality and cost. We evaluate and select hospitals for our networks using both quality and cost-efficiency measures. We measure quality using specific established standards. To measure cost efficiency, we compare each hospital to other hospitals in the area.

Doctors

We choose our network doctors from multiple specialty types as well as primary care. Doctors must meet certain standards and agree to rates with us before joining our network. The standards used vary depending on the doctor's specialty.
